

DAMAYA

DIGITAL CREATIVE

WHO WE ARE

D A M A Y A create unique branding elements and amazing Graphic design, to work hand in hand, not only on your online & print materials, but with your overall campaign strategy, high end web development with Competitively Concept.

**Creativity is just connecting things.
That's because they were able to
connect experiences they've had and
synthesize new things.**

Steve Jobs

Committed

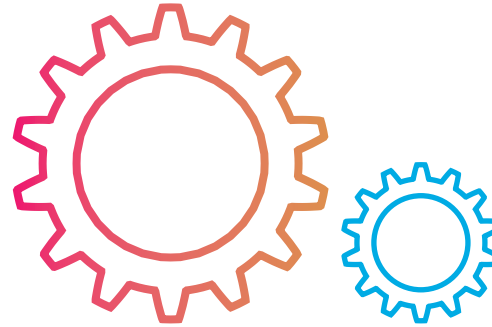

D A M A Y A aims to build relationships with clients that are based on **trust, transparency, consistency and integrity.**

We like to learn about the people and companies we work with. We aim to build every projects as if it were our very own and to be easy to work with on every aspect of **our clients presence.**

Our Service

DAMAYA focuses on offering an incomparable level of customer service. We specialize in giving our customers the kind of consistent, friendly, personalised service that larger Digital development companies don't offer. A satisfied customer always means more and better business, so we try to make the completion of your web site an enjoyable experience. We are always honest in our recommendations and feedback.

We keep you informed at every step of the design process. We provide private access to your project from day one. Our goal is to create a long lasting relationship with our clients, wherever they are located.

Why Choose Us

Experience and knowledge.

We understand how business works and we can give you that edge.

Total satisfaction

We believe that our customers must be totally satisfied with the work which we are commissioned to do. As long as you give us clear instructions on what you require, and we agree to deliver on this, then we will do just that.

Competitive

We offer high quality work matched by customer competitive service. We are not the cheapest, but we are far from the most expensive. We think you'll find our work comparable and we abide by our agreements.

Flexibility

We having a manageable client load means your projects are completed on time

Passionate about customer service

We specialize in giving our customers the kind of consistent, friendly, personalised service that larger web development companies dont offer.

Our Produce

We do more than just Creative Agency. Come by, we'll help you brainstorm creative ideas for your next product or service launch.

We've learned that an effective online presence is more than just a website. You also need a good brand and lots of qualified traffic.

So in addition to our information and ecommerce websites, we offer branding, graphic design, logo design, search engine optimisation, an advertising and Software house, website application, mobile application and networking. Our team offers everything you need for digital success and we take pride in partnering for the long term.

Creative Graphic

We have years of experience in branded merchandise, a unique business card design, magazine adverts, brochures, flyers, Annual Report, Sustainability Report, video and multimedia .

We can assist in effectively communicating your marketing and promotional messages to your target market. Our team have a wealth of experience in working to specific briefs, budgets and deadlines, and can deliver a high quality design service in a timely manner.

Branding

Creating the right brand identity is one of the most important steps in launching a business. An effective brand identity will position you perfectly for your target market and will send a clear message to your customers about the kind of business you are and whether you are right for them.

With years of experience in branding and helping new and existing businesses with brand identities, we can help you with anything from a simple refresh right through to a fundamental re-brand exercise.

We have the experience to assist you through the journey of creating a new identity. Our web designers can help strengthening your brand and optimizing your online business performance. We create solution fo visual and narrative identity that speak to their audience by articulating in tone, style and phylosophy.

Web and Mobile Development

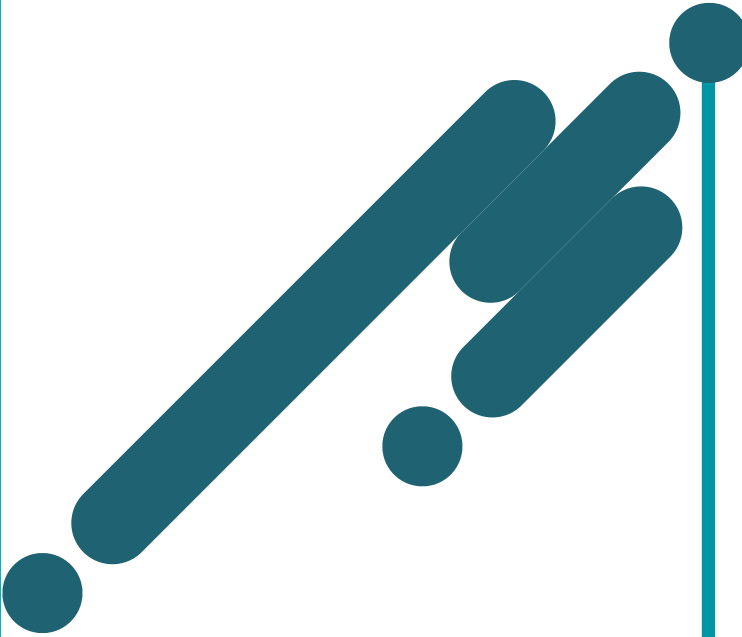

Hand built by us, unique to you!

In the fast moving and complex world it is critical to have digital media that is technically and functionally superior as well as eye-catching from a design perspective.

We have years of experience in web design and website development and other online solutions. We can take a project from your initial ideas, through creative visualisation and project planning, to delivery of your specific business goals.

We design esthetically pleasing, elegant and engaging, interactive websites, that truly represent your company image, culture and philosophy. Whatever your company is looking for we can create with a little something extra.

Our To Do

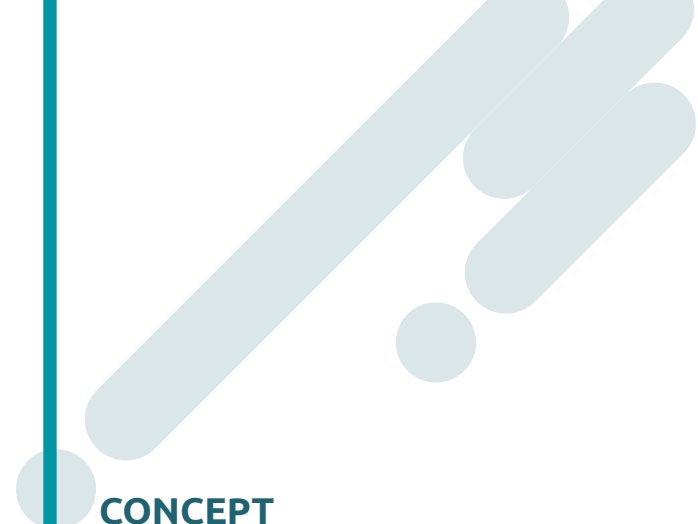

RESEARCH

Before we build, we assess both the business and the idea. We combine things like interviews with clients to expand upon the initial ideas and help avoid any potential problems.

STRATEGY

We not only have a lot of experience with sales and marketing, we understand the technology behind making it all work on the internet. Our team has worked with both startups and companies to refine their branding and reach optimal communication.

CONCEPT

We Create formula Strategy and Research make a **CONCEPT**, Easy for using, implementing and Good Business Impact.

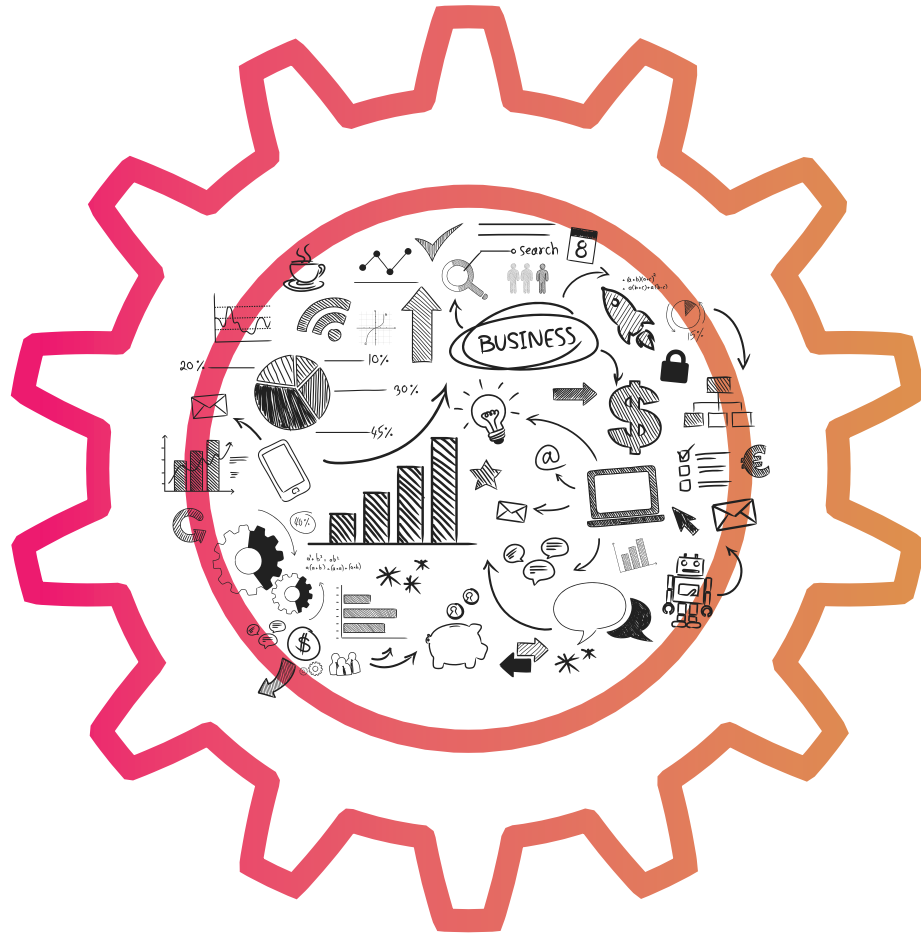

EXECUTION

We developed to create a visual and narrative that speak to the audience by articulating company culture, style and philosophy, improving awareness and making connections for company profile.
